

Dear friends and supporters,

As a proud supporter of our community's heritage, I am writing to encourage you to consider making a planned gift to the Heritage Abbotsford Society. By including Heritage Abbotsford Society in your estate planning, you can help ensure that our community's history and cultural heritage are preserved for generations to come.

Your planned gift will help Heritage Abbotsford Society continue its important work of preserving our community's heritage buildings, artifacts, and stories, as well as educating our community about our shared history. These efforts not only benefit our community's cultural heritage but also contribute to the economic development of Abbotsford by attracting tourists and visitors.

A planned gift can take many forms, including bequests, life insurance policies, charitable trusts, and more. By working with your financial advisor, you can create a gift that meets your individual needs and preferences while also supporting a cause that is important to you.

By making a planned gift to Heritage Abbotsford Society, you can leave a lasting legacy that will make a positive impact on our community for years to come. Thank you for your consideration and your commitment to preserving our community's heritage!

Sincerely,

Christina Reid
